In a hotel that expresses the very essence of Rome, there's a truly regal suite that is sumptuously unique. Two floors of pure elegance and refinement, situated right beneath the 12 metre high cupola that overlooks Via Veneto. An enchanting position, a rare privilege.

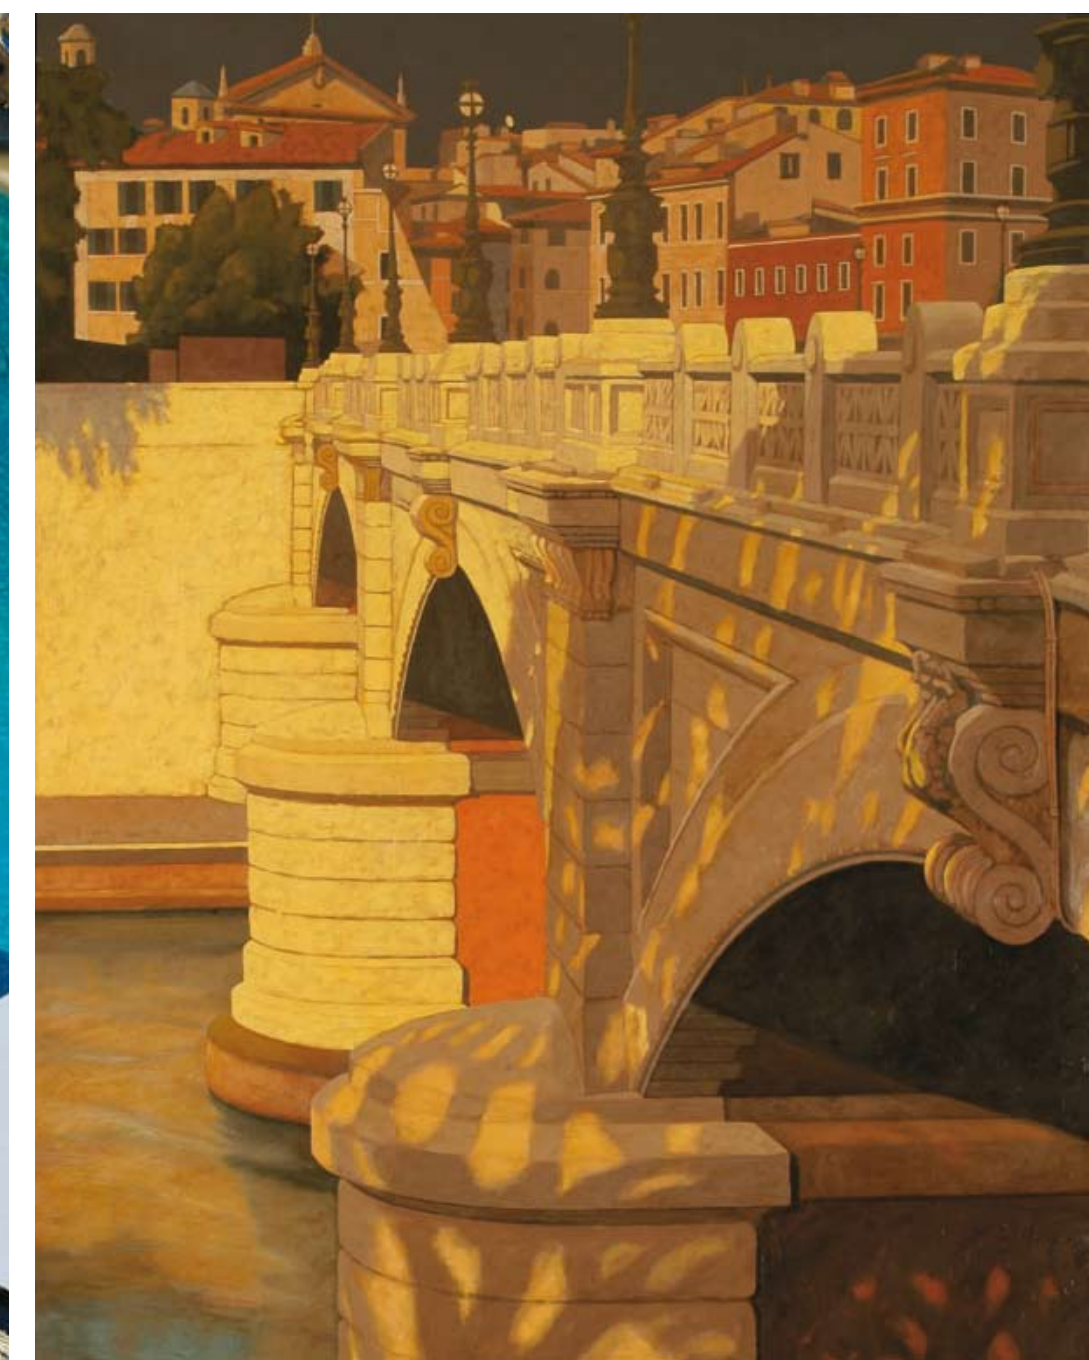

Magnificent décor,
inspired by Roman villas and palaces.

A tasteful blending of styles with
marbles, frescoes, furnishings and fittings
harmoniously combined to highlight
precious materials, colours and forms.

To enhance the experience,
the latest technology and design,
and dolby surround system.

The suite is immense – up to 1,100 square metres (11,700 square feet): simply magnificent.

The wrap-around terrace is a parlour in itself, framed by the Roman sky suspended before it like a painting.

And to toast to the pleasure of experiencing such splendid surroundings, guests can choose from a selection of the finest wines.

La dolce vita, without a doubt.
